

Bachelor of Global Management

About the program

Prepare for success in a global marketplace with specialized courses such as global marketing; states and markets in a global economy; and multinational organizational leadership. Equipped with a strong global business background, you will be ready for a career in global marketing, consulting, foreign service, human resources, entrepreneurship and more.

Thunderbird School of Global Management's Bachelor of Global Management (BGM) program prepares students to take on leadership roles in multinational corporations, government agencies, or nongovernmental organizations. Thunderbird's world-class faculty and strong relationships with global enterprises allow students to develop and hone the skills needed to thrive as leaders in today's interconnected global economy. Students gain experience and develop skills that international companies, governments and nonprofit entities value highly in employees.

Everyone in the BGM program has the opportunity to explore the politics, cultures, and economics of different countries around the world while putting skills into practice in real-world settings through a required international internship. Although students are strongly encouraged to pursue internships outside their home country, they may also satisfy this requirement by doing a local internship with an international component.

Summer internship

Phoenix, Arizona
(ASU West Campus)

2

Tracks offered

Who should attend?

- Students interested in starting a global career.
- Transfer students who want to focus on global management and leadership skills.
- Students who want to take on leadership roles in multinational corporations, government agencies, or global nongovernmental organizations.
- Students interested in helping organizations stay ahead of disruption.

Program format

This program offers two tracks: the international business, language, and culture track, which requires two years of foreign language study; and the international business and culture track, which does not require a foreign language study and places an emphasis on management-related courses. Students who select the foreign language track may complete coursework in a variety of languages. The international business, language, and culture track is offered to on-campus students only. Online students may only pursue the international business and culture track.
