

Master of Global Management

About the program

Thunderbird's specialized Master of Global Management (MGM) is the vanguard degree for the Fourth Industrial Revolution. In this program, you will study practical core courses in global management, international political economy and cross-cultural engagement. Then, you'll broaden your mindset and marketability by pairing your deep-dive leadership training with an innovative concentration area, foreign language options, and hands-on experience through our Global Challenge Lab.

Or	
• 6 credits of any graduate-level classes +6 credits of language to meet the second language requirement	

“

The way the degree is structured is very practical. There isn't a lot of just theory, it's a lot of stuff that you practice day in and day out. You are already in a setting where you are working with peers, which is the nature you will have in a workplace”

– Ashraf Ismail '22

Master of Global Management
Sudan
