Executive Master of Global Management

Global Executives for the Fourth Industrial Revolution

The world is innovating. Technology is changing the way we live, work, and relate to each other. To thrive in this new paradigm of rapid technological transformation, where machine learning and artificial intelligence are driving change in all industries’ practices, a revitalized brand of business and management education is essential. In a world of innovation and constant change, Thunderbird is educating, inspiring, and empowering nimble, ethical leaders who are equipped to build sustainable enterprises.

Delivered for busy global professionals

- Globally, future-oriented curriculum facilitated by faculty content experts, professors of practice and experienced senior practitioners
- Working professionals who see potential for growth and promotion in international management positions inside or outside of their current organization
- Entrepreneurial-minded professionals who are interested in starting their own business or becoming a strategic consultant in their field of interest

Applied learning and language immersion

At Thunderbird, you won’t just learn global leadership – you’ll live it through hands-on experience and language immersion opportunities, and real-world projects around the globe.

Curriculum:

Fall semester
- Global personal leadership journey
- Communicating and negotiating across cultures
- Big data in the global economy

Spring semester
- Global leadership
- Global digital transformation
