

Online Bachelor of Science in International Trade (OBSIT)

About the program

Launch your global business and policy career with a unique Bachelor of Science degree from the world's premier leadership and management school. Master global economic dynamics and develop a digital global mindset. Study disruptive technologies such as AI, IoT and blockchain, diverse business environments, global supply chains and cross-cultural negotiation.

Designed as a transformative learning experience for the 21st century, this program goes far beyond managing the exchange of goods and services from one country to another. Rather, it allows you to build expertise in international trade at the nexus of global business and public policy.

Career opportunities

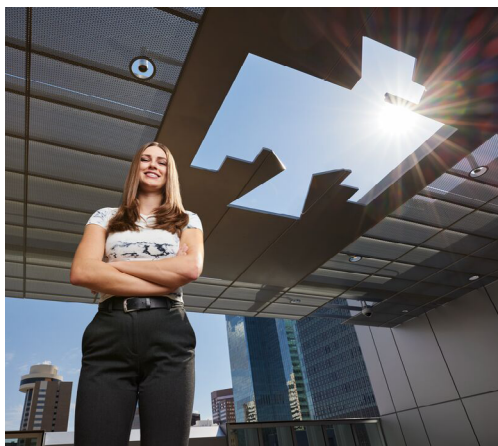

As the global economy expands and interconnects, demand for globally-minded specialists is rapidly increasing. Graduates of the OBSIT program have a variety of globally transferable skills that open doors to an abundance of career opportunities around the world.

Commodities Broker
