

AI Strategy for Executives

Artificial Intelligence is reshaping every industry, but lasting competitive advantage depends on leaders who can move beyond experimentation to enterprise-wide execution. This immersive two-day executive program equips leaders with the strategic frameworks, governance models, and practical tools needed to lead AI transformation responsibly and effectively.

\$1,500 | 2 days | in person or online

Program benefits

- Build a practical roadmap for moving from AI strategy to enterprise execution.
- Strengthen AI governance, risk management, and responsible decision-making.
- Identify high-impact AI opportunities that drive innovation and business performance.
- Lead organizational transformation and prepare teams for AI-enabled ways of working.
- Apply practical executive frameworks that deliver measurable business value.
