

Thunderbird School of Global Management Announces Scholarships for Members of Rotary International

Rotary is the premier global organization known for its astounding work in the eradication of polio, among many global and local human development projects. Rotary’s motto “People of Action” and this year’s theme “Rotary Opens Doors” expresses the organization’s commitment to community building for all people. Rotary Youth programs train tomorrow’s leaders to live with integrity, serve their neighbors, serve internationally, and explore other cultures.

At Thunderbird School of Global Management, we are also proud of our global reach and dedicated community. We are the vanguards of the Fourth Industrial Revolution that connects the world like never before, and we train global leaders to create inclusive and sustainable prosperity worldwide.

We believe that our partnering organizations, aligned in vision and mission, can combine our resources to multiply our impact and create a better world. We invite Rotarians and Rotary Youth to consider advancing their education at Thunderbird, and we proudly offer scholarships to those admitted to Thunderbird and recommended by their Rotary Clubs—while funding lasts.

The following scholarships are offered for incoming Thunderbird students who have been members of Rotary or a Rotary Youth program for at least a year before their chosen academic program begins.

Academic year: Fall 2021–Spring 2022

Future scholarship availability will be determined on an annual basis.
